Dark Blue

- Reflects 25 - 80% of the sun's rays, creating cooler interiors
- Helps prevent oil canning
- Superior resistance to chalking and fading

Steel suppliers and paint sources
may vary, but all material under
warranty qualifies as Cool Paint

- 55% aluminum/zinc or G-60 coated steel substrate
- Urethane primer applied, ensuring permanent bonding of the finish coat
- Siliconized Modified Polyester (SMP) finish coat adds fade-resistant color and long-lasting protection

Our Loc Seam roofing offers the clean look of a standing seam panel. Concealing the fasteners greatly reduces required maintenance, making it the most popular choice for home owners in the Pacific Northwest. Our roof will add elegance to your home for many years to come.

Features and Benefits

- 40-Year Limited Warranty
- CoolPaint® Technology reduces energy costs – tax credits often available
- UL ratings available
- Slotted screw flange for ease of installation
- Jobsite rollforming available
