DURA COAT
PRODUCTS INC.

- AZ-50 zinc/aluminum substrate
- Urethane primer applied, ensuring permanent bonding of the finish coat
- Siliconized Modified Polyester (SMP) finish coat adds fade-resistant color and long-lasting protection

Our Loc Seam roofing offers the clean look of a standing seam panel. Concealing the fasteners greatly reduces required maintenance making it the most popular choice for home owners in the Pacific Northwest. With the additional advantages of a Teflon® sealer, our roof will add elegance to your home for many years to come.

Features and Benefits

- 40-Year Limited Warranty
- CoolPaint® Technology reduces energy costs – tax credits often available
- Storm Shield additive in standard colors seals the paint system, increasing its self-cleaning properties
- UL ratings available
- Slotted screw flange for ease of installation
- Jobsite rollforming available
